SUMMARY

Proficient Junior Full Stack Developer experienced and skilled in Angular, JavaScript, Node.js, and GraphQL. Experienced in developing, testing, and documenting scalable, user-friendly web applications with a focus on performance, coding standards, and maintainability. Skilled in delivering high-quality, defect-free code, automating workflows, and optimizing system efficiency. Experienced in Agile methodologies, RESTful API development, and creating modular components for long-term system sustainability.

WORK EXPERIENCE

Junior Full Stack Developer

S & H Ventures LLP, Kochi

March 2023 – November 2024

- Designed and developed key features for a project management tool using Angular, Node.js, GraphQL and MySQL, enhancing data update efficiency and system maintainability.
- Conducted detailed unit testing with comprehensive documentation, ensuring functionality coverage and delivering high-quality, defect-free code.
- Optimized GraphQL queries, improving application responsiveness and overall system performance.
- Automated repetitive tasks, streamlining workflows and boosting team productivity.
- Contributed to a Learning Management System by automating processes and creating modular components, enhancing development flexibility and scalability.

Full Stack Developer Intern

Beinex Consulting, Kochi

Sep 2022 – Dec 2022

- Designed and implemented end-to-end applications using **Python, Django, Angular, and MySQL**.

Full Stack Developer Intern

Luminar Technolab, Kochi

Sep 2021 – Mar 2022

- Completed multiple projects in **Python, Django, Angular, and MySQL**, demonstrating expertise in testing and configuration.

PROJECTS

Online Book Gallery (*Python, Django*)

- Developed an online bookstore application with user roles for admins and buyers.
- Implemented a secure purchase process and an easy-to-manage inventory system, improving usability and security.

Employee Management System (*Python, Django, Angular*)

- Built a system to manage employee tasks with role-based access for managers and employees.
 - Integrated **JWT authentication**, ensuring data security and efficient user management.
-

EDUCATION

- **B.Sc. Computer Science**, University of Calicut (2017 - 2020)
 - Class 12, Kerala Board of Higher Secondary Education (2017)
 - Class 10, Kerala Board of Public Examinations (2015)
-

SKILLS

- **Frontend:** Angular, JavaScript, Typescript, GraphQL, HTML, CSS
 - **Backend:** Node.js, Hasura, Python, REST APIs, Firebase
 - **Testing & Quality:** Unit Testing, Defect Management, Configuration
 - **Documentation:** Process Documentation, Technical Documentation
 - **Database:** MySQL, MongoDB
 - **Version Control:** Git
 - **Other Developer Tools:** Visual studio code, Postman
-

CERTIFICATIONS

- **National Council for Technology & Training Certification in Full Stack Development ([NACTET](#))**
